¹ Evidence-based education programs

² This may include multi-state grants and/or grants that were awarded to an organization in another state, but are benefitting youth in your state.

³ Replaced the Competitive Abstinence Education Program beginning in FY 2016.

FEDERAL TEEN PREGNANCY PREVENTION GRANTS⁴

State Personal Responsibility Education Program (PREP)

Alabama Department of Public Health

\$782,092

The Alabama Department of Public Health is using PREP funds to implement an evidence-based teen pregnancy prevention program with youth in foster care and juvenile justice. The program includes a healthy relationships component.

Tribal PREP

FY 2011 – FY 2015

Poarch Band of Creek Indians \$138,172

Title V State Abstinence Education Grant

Alabama Department of Public Health

\$1,357,675

The Alabama Department of Public Health is using their grant to provide instruction to sixth and seventh grade students in nearly 30 communities. The program utilizes high school-aged students as teen leaders.

Competitive Abstinence Education Grant Program

FY 2013

Teens Empowerment Awareness with Resolutions, Inc.

Phenix City, AL

\$467,234 (to be spent through FY 14)

Teen Pregnancy Prevention Program (TPPP) — Tier 1

FY 2010 – FY 2014

Macon County Board of Education

Tuskegee, AL

Program models: *Teen Outreach Program™*; *Making a Difference!*

\$426,172

Macon County Board of Education will serve over 4,100 African-American youth during the five-year project period using the *Teen Outreach Program™* and *Making a Difference!* evidence-based program models. The target population includes youth in grades six through twelve and college freshmen. The grantee will serve youth in Macon County, Alabama, through school and community-based settings. In addition, they will ensure that they provide a range of referral services for mental health and medical care as well as other social services.

⁴ Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. State PREP, Tribal PREP, and Title V State Abstinence grant amounts, where applicable, reflect the most recent annual award.

CDC Grant

FY 2010 – FY 2014

The Alabama Department of Public Health (ADPH)

\$846,051

ADPH is focusing its teen pregnancy prevention activities on Mobile County, Alabama. Mobile County has the highest teen pregnancy rate (65.6 per 1,000 population) of Alabama's three largest metropolitan statistical areas, and more than 29,000 females aged 10–19 years. The Mobile County Health Department (MCHD) has established partnerships with 11 youth-serving organizations and 4 family planning health care providers at 8 sites to recruit teens into the program. The Alabama Campaign to Prevent Teen Pregnancy and Region IV Title X Training Center are collaborating to train staff and educate stakeholders on the effective development and implementation of evidence-based and evidence-informed teen pregnancy prevention programs. MCDH health educators are implementing evidence-based interventions with teens, engage community stakeholders, and conduct training of trainers to promote program sustainability. Program evaluation will be done in conjunction with staff from the University of South Alabama. As a result of these efforts, by 2015 ADPH expects a 10% reduction in birth rates among African-American females aged 15–19 in the target community.

TITLE X FAMILY PLANNING SERVICES IN ALABAMA

- Title X–supported centers provided contraceptive care to 92,800 women in Alabama in 2014.⁵ These services helped women avoid 22,500 unintended pregnancies, which would have resulted in 10,900 births and 8,100 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in Alabama would be 52% higher.⁶
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X–supported centers in Alabama saved \$82.2 million in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding Alabama received for Title X decreased by \$784,178, resulting in 16,122 fewer (15%) patients served.
- In Alabama, 86 clinics receive support from Title X. Local health departments operate all 86 clinics.

About The National Campaign: The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. For more information, visit www.TheNationalCampaign.org.

⁵“Title X-supported centers” are supported by a mix of funding sources (in addition to Title X funding), including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

⁶ “Publicly-funded family planning services” refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
