¹ Evidence-based education programs

² This may include multi-state grants and/or grants that were awarded to an organization in another state, but are benefitting youth in your state.

³ Replaced the Competitive Abstinence Education Program beginning in FY 2016.

FEDERAL TEEN PREGNANCY PREVENTION GRANTS⁴

State Personal Responsibility Education Program (PREP)

Colorado Department of Human Services

\$862,007

The Colorado Department of Human Services is using PREP funds to implement evidence-based programs in Denver, Garfield, and Huerfano counties using a positive youth development approach. Populations of focus include youth in foster care and runaway/homeless youth.

Personal Responsibility Education Innovative Strategies (PREIS)

FY 2010 – FY 2015

Education Development Center, Inc.

Newton, MA

Project name: More Than a Dream Teen Pregnancy Prevention for Latino Youth

\$773,359

More than a Dream Teen Pregnancy Prevention for Latino Youth is a collaboration between Education Development Center, the University of Michigan School of Nursing, and the League of United Latin American Citizens' National Educational Service Centers (LNESEC), to find developmentally appropriate and culturally and linguistically relevant youth and parent interventions that address sexual health and pregnancy prevention among Latino youth. The project will evaluate the youth intervention *Cuidate* (Take Care of Yourself) and the parent intervention *Salud y éxito* (Health & Success), as well as a combined youth-parent program called *Más que un sueño* (More Than a Dream). Work will take place at four LNESEC sites, in Albuquerque, NM, **Colorado Springs, CO**, El Paso, TX, and Kansas City, MO, with the goal of reducing sexual and other risk behaviors. Participants will be younger Latino adolescents, ages 12 to 14, and their parents.

Title V State Abstinence Education Grant

Colorado Department of Education

\$925,137

The Colorado Department of Education is using their grant to deliver abstinence-only programming through four public and private entities with high numbers of teen pregnancies.

Sexual Risk Avoidance Education Program Grant

FY 2016 – FY 2018

Friends First, Inc.

Greenwood Village, CO

\$440,299

⁴ Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. State PREP, Tribal PREP, and Title V State Abstinence grant amounts, where applicable, reflect the most recent annual award.

**Competitive Abstinence Education Grant Program
FY 2013**

The Center for Relationship Education
Denver, CO
\$491,193 (to be spent through FY 2014)

Friends First, Inc.
Littleton, CO
\$474,109 (to be spent through FY 2014)

**Teen Pregnancy Prevention Program (TPPP) — Tier 1
FY 2015 – FY 2019**

Colorado Youth Matter
Denver, CO
\$749,900

The goal of the Colorado Youth Matter Maximizing Success program is to increase sustained use of evidence-based interventions for teen pregnancy prevention in schools and clinics in Adams, Arapahoe, and Denver counties. In order to achieve this goal, Colorado Youth Matter provides support to five Capacity Building Assistance (CBA) Partners in school and clinic settings. These partners were chosen based on their locations in communities of highest need (Adams, Arapahoe, and Denver counties) as well as grant-specified selection criteria (i.e. level of experience and need for teen pregnancy prevention CBA in their organization). Partners implement the evidence-based programs that best serve their specific youth populations and work to ensure close collaborations between schools and clinics for outreach and referrals.

**Teen Pregnancy Prevention Program (TPPP) — Tier 1
FY 2010 – FY 2014**

Friends First
Littleton, CO
Program model: *Project AIM (Adult Identity Mentoring)*
\$901,604

Friends First will implement *Project AIM*. The project targets all 7th graders, ages 12-14 in 14 middle schools in low income urban and suburban areas in Denver and surrounding communities with high Hispanic populations. The overall goal of the project is to provide youth with the motivation to make safe choices, to imagine a positive future, and provide opportunities to discuss how current risk behaviors can be a barrier to a successful adulthood.

**Teen Pregnancy Prevention Program (TPPP) — Tier 2
FY 2010 – FY 2014**

Denver Health and Hospital Authority
Denver, CO
Program model or strategy: *Teen Outreach Program™ (TOP)* with social media enhancement
\$808,785

Denver Health and Hospital Authority will test the efficacy of adding an innovative cell phone-based adaptation, *Teen Outreach Program for Medial Enhancement (TOP4ME)*, to an evidence-based, youth

development intervention, *TOP*. The *TOP4ME* cell phone component will emphasize key learning components of the *TOP* model and increase opportunities for referrals. The grantee will implement this project at Boys and Girls Clubs of Metro Denver. The goal is to increase the number of participants who use contraception or remain abstinent in *TOP4ME* compared to the original *TOP* intervention.

University of Colorado, Denver
Aurora, CO

Program model or strategy: *Circle of Life*
\$924,543

This project targets 13-15 year olds enrolled in after-school programs at eight Native Boys and Girls clubs located in rural tribal reservation areas in North and South Dakota, representing 10 different tribes. The curriculum, *Circle of Life*, is a theory-based sexual risk reduction intervention designed specifically for Native youth that uses familiar symbols, stories, and ways of learning to build knowledge and skills to bring about behavior change in Native youth. The project will digitize *Circle of Life* and adapt components to accommodate shortened after-school programming. The project will also adapt *Circle of Life* to reflect tribal-specific content through digital, readily accessible techniques, such as digital story telling. The goal is to evaluate the effectiveness of *Circle of Life* in reducing the probability of behavior resulting in pregnancy.

TITLE X FAMILY PLANNING SERVICES IN COLORADO

- Title X–supported centers provided contraceptive care to 47,510 women in Colorado in 2014.⁵ These services helped women avoid 11,500 unintended pregnancies, which would have resulted in 5,600 births and 4,100 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in Colorado would be 69% higher.⁶
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X-supported centers in Colorado saved \$42.5 million in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding Colorado received for Title X decreased by \$219,744, resulting in 16,036 fewer (24%) patients served.
- In Colorado, 69 clinics receive support from Title X. They include health department clinics (41), federally qualified health centers (22), hospitals (4), and private non-profits (2).

About The National Campaign: The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. For more information, visit www.TheNationalCampaign.org.

⁵ “Title X-supported centers” are supported by a mix of funding sources (in addition to Title X funding) including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

⁶ “Publicly-funded family planning services” refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
