¹ Evidence-based education programs

² This may include multi-state grants and/or grants that were awarded to an organization in another state, but are benefitting youth in your state.

³ Replaced the Competitive Abstinence Education Program beginning in FY 2016.

FEDERAL TEEN PREGNANCY PREVENTION GRANTS⁴

State Personal Responsibility Education Program (PREP)

Illinois Department of Human Services

\$2,119,733

The Illinois Department of Human Services is sub-granting their PREP funds to a variety of public and private organization to provide evidence-based programs. The program targets youth in areas with a demonstrated need and with high proportions of African American and/or Latino youth.

Personal Responsibility Education Innovative Strategies (PREIS)

FY 2010 – FY 2015

Demoiselle 2 Femme, NFP

Chicago, IL

Project name: Demoiselle 2 Femme “Young Ladies to Women” Holistic Youth Development Program
\$555,701

Demoiselle 2 Femme will implement and evaluate the 3-D curriculum integrated with 7 of 8 modules of the evidence-based “*Making a Difference*” curriculum. The project will target 800 African American girls, ages 14 to 18, in eight high schools on the South Side of Chicago for an intensive 15-month program of weekly instruction, monthly motivational sessions, school advocacy, academic support, college admissions assistance, service learning, and a parent component. Goals are to reduce teen pregnancy, delay sexual debut, decrease sexual activity among the sexually active, and reduce the incidence of sexually transmitted disease.

In addition, ILLINOIS is one of 4 sites participating in a PREIS grant going to the Oklahoma Institute for Child Advocacy:

Oklahoma Institute for Child Advocacy

Oklahoma City, OK

Project Name: *POWER Through Choices 2010*: Demonstration, Evaluation and Dissemination Project
\$929,750

Oklahoma Institute for Child Advocacy will implement and evaluate *POWER Through Choices 2010*, a sexuality education curriculum developed with and for youth in foster care and other out-of-home placements. The project will target youth, ages 14 to 18, living in foster care group home settings in racially/ethnically diverse areas in four states: Oklahoma, California, **Illinois** and Maryland. The 10-session curriculum provides instruction and skills building in the areas of reproductive health, sexual decision-making (including abstaining from sexual activity) and STI and pregnancy prevention. The goals of the project are to test the efficacy of the updated curriculum in reducing teen pregnancy and to disseminate the lessons learned during program implementation to inform future replications of the program with youth living in foster care.

⁴ Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. State PREP, Tribal PREP, and Title V State Abstinence grant amounts, where applicable, reflect the most recent annual award.

Title V State Abstinence Education Grant

\$2,769,115

Teen Pregnancy Prevention Program (TPPP) — Tier 1 FY 2015 – FY 2019

Illinois Department of Human Services

Location: Springfield, IL

Program models: *Be Proud! Be Responsible!; Draw the Line/Respect the Line; Love Notes; Making a Difference!; Positive Prevention PLUS*

\$2,000,000

The Illinois Department of Human Services (IDHS) envisions a future of healthy youth making informed decisions in which unplanned teen pregnancies do not occur. To execute this vision and achieve the goal of the project, IDHS selected and established partnerships with seven community-based organizations that will serve nine communities outside of Chicago by replicating evidence-based teen pregnancy prevention programs to scale in three settings: 1) Elementary and/or middle schools; 2) High schools; and 3) Alternative schools or community-based afterschool programs. The project is comprised of six major components, all of which are aimed at decreasing teen birth rates: 1) Executing the 10-step Getting to Outcomes process including a resource assessment; 2) Delivering teen pregnancy prevention evidence-based curriculum in three settings; 3) Establishing linkages and making referrals to youth-friendly health care services; 4) Working with Community Advisory Groups; 5) Working with Youth Leadership Councils; and 6) Coordinating communication activities and strategic dissemination.

Better Family Life

Saint Louis, MO

Program models: *Promoting Health among Teens-Abstinence Only; Making Proud Choices!; Sisters Saving Sisters*

\$1,249,997

Better Family Life, Inc. (BFL) is a St. Louis, Missouri community development corporation with 32 years of experience in operating programs to strengthen St. Louis Families. BFL is partnering with 22 St. Louis City, MO, St. Louis County, MO, and **St. Clair County, IL**, public and private schools in six different area school districts. The BFL Teen Pregnancy Prevention Program is designed to educate youth on positive sexual health decision making and emphasizes abstinence. BFL implements evidence-based initiatives, programs and services to reduce teen pregnancy, HIV, other sexually transmitted diseases (STDs), and risky sexual behavior among adolescents in middle school, high school, and community/after school settings in the greater metropolitan area. The BFL initiative seeks to empower students in urban and suburban communities to navigate adolescence so they make proud choices that reflect their passion and potential.

**Teen Pregnancy Prevention Program (TPPP) — Tier 2
FY 2015 – FY 2019**

City of Chicago, Department of Public Health

Chicago, IL

\$1,000,000

The Chicago Department of Public Health (CDPH) intends to evaluate promising approaches informed by empirical evidence that have the potential to reduce teen pregnancy rates, sexually transmitted infection (STI) rates, and associated sexual risk behavior. In order to achieve this goal, CDPH implements the STI Education and Screening Program, which provides onsite sexual health education, optional urine screening for gonorrhea and chlamydia, a confidential counseling session with a health educator, and linkage to care services to high school age students in Chicago Public Schools.

**Teen Pregnancy Prevention Program (TPPP) — Tier 1
FY 2010 – FY 2014**

Chicago Public Schools

Chicago, IL

Program model: *Teen Outreach Program™*

\$3,943,607

Chicago Public Schools will implement the Chicago Teen Pregnancy Prevention Initiative using the *Teen Outreach Program™ (TOP)* model, reaching approximately 9,000 9th grade students enrolled in almost 40 target schools. The overarching goal of this initiative is reduce teen pregnancy by improving Chicago youth's life skills, healthy behaviors, and community engagement. The program includes plans for a condom availability program, teen health hotline, community service programming, youth advisory committee, and social media campaign. The project also includes an independently conducted rigorous evaluation, with half of the students randomized into a control condition.

Children's Home & Aid Society of Illinois

Chicago, IL

Program model: *Children's Aid Society - Carrera Adolescent Pregnancy Prevention Program*

\$1,443,303

Children's Home & Aid Society of Illinois will implement *Children's Aid Society - Carrera Adolescent Pregnancy Prevention Program* at three sites in adjacent neighborhoods in Chicago's south side. Building on strong existing partnerships, the grantee will target 180 youth, primarily African American, in grades 4th, 5th and 6th. The project also includes an independently conducted rigorous evaluation. The ultimate goal for this project is to reduce teen pregnancy rates among the target population. The project will also focus on objectives of increasing access to medical and dental care, increasing program participation, and decreasing sexual initiation.

TITLE X FAMILY PLANNING SERVICES IN ILLINOIS

- Title X–supported centers provided contraceptive care to 86,830 women in Illinois in 2014.⁵ These services helped women avoid 21,000 unintended pregnancies, which would have resulted in 10,200 births and 7,600 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in Illinois would be 29% higher.⁶
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X-supported centers in Illinois saved \$126.1 in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding Illinois received for Title X decreased by \$1,918,456, resulting in 10,335 fewer (9%) patients served.
- In Illinois, 94 clinics receive support from Title X. They include federally qualified health centers (42), health department clinics (28), Planned Parenthood clinics (10), private non-profits (6), hospitals (5), and school-based centers (3).

About The National Campaign: The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. For more information, visit www.TheNationalCampaign.org.

⁵ “Title X-supported centers” are supported by a mix of funding sources (in addition to Title X funding) including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

⁶ “Publicly-funded family planning services” refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
