** For an overview of federal funding for teen pregnancy prevention, see <https://thenationalcampaign.org/resource/federal-funding-streams-teen-pregnancy-prevention>

¹ Evidence-based education programs

² This may include multi-state grants and/or grants that were awarded to an organization in another state, but are benefitting youth in your state.

³ Replaced the Competitive Abstinence Education Program beginning in FY 2016.

FEDERAL TEEN PREGNANCY PREVENTION GRANTS⁴

State Personal Responsibility Education Program (PREP)

KY Cabinet for Health and Families

\$702,361

The Kentucky PREP state grant program is distributing funds to 21 local entities in 47 counties across Kentucky. Local health departments and community-based organizations are implementing evidence-based programs in public schools, as well as residential treatment, juvenile justice, and behavioral health facilities.

Title V State Abstinence Education Grant:

KY Cabinet for Health and Families

\$1,144,262

The Kentucky Abstinence education program gives funding to 29 local health departments and community-based organizations to provide abstinence education in public schools to students in grades 6-8.

Sexual Risk Avoidance Education Program Grant

FY 2016 – FY 2018

Lake Cumberland District Health Department

Somerset, KY

\$433,996

Teen Pregnancy Prevention Program (TPPP) — Tier 1

FY 2015 – FY 2019

Centerstone of Tennessee, Inc.

Nashville, TN

Program models: *Be Proud! Be Responsible!; Making a Difference!; Sexual Health and Adolescent Risk Prevention (SHARP)*

\$2,000,000

Centerstone of Tennessee's Be in Charge 2 program implements evidence-based teen pregnancy prevention (TPP) programs for 60,000 youth age 10-19 throughout 80 counties, including 60 counties in Tennessee and 14 counties in Kentucky with the highest teen birth rates. In Indiana, 11 counties with the highest teen birth rates will receive outreach and resources to train professionals working with high-risk youth. Outreach services will be provided to communities in the same geographic area and are designed to educate youth and adults as well as increase awareness through the use of social media, educational presentations, local community capacity building, resource development and distribution, event sponsorship, and stakeholder training to sustain effective TPP efforts beyond the end of the grant.

⁴ Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. State PREP, Tribal PREP, and Title V State Abstinence grant amounts, where applicable, reflect the most recent annual award.

**Teen Pregnancy Prevention Program (TPPP) — Tier 2
FY 2010 – FY 2014**

University of Louisville Research Foundation
Louisville, KY

Program model or strategy: *Reducing the Risk* adaptation and *Love Notes*
\$963,330

The University of Louisville Research Foundation is implementing an adapted version of *Reducing the Risk* and *Love Notes* to high risk urban youth ages 14-19 (including immigrants, refugees, former foster youth and other youth from low income neighborhoods with high rates of teen pregnancy). The University of Louisville Research Foundation will test their interventions by recruiting youth from seven to 15 community- and faith-based organizations from the lowest income neighborhoods in west and south central Louisville, KY. A total of 1,260 youth will be served during the five-year grant period.

TITLE X FAMILY PLANNING SERVICES IN KENTUCKY

- Title X-supported centers provided contraceptive care to 64,520 women in Kentucky in 2014.⁵ These services helped women avoid 15,600 unintended pregnancies, which would have resulted in 7,600 births and 5,600 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in Kentucky would be 49% higher.⁶
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X-supported centers in Kentucky saved \$148.8 million in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding Kentucky received for Title X decreased by \$305,692, resulting in 54,090 fewer (52%) patients served.
- In Kentucky, 145 clinics receive support from Title X. They include health department clinics (132), federally qualified health centers (9), Planned Parenthood clinics (2), and universities (2).

About The National Campaign: The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. For more information, visit www.TheNationalCampaign.org.

⁵ “Title X-supported centers” are supported by a mix of funding sources (in addition to Title X funding) including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

⁶ “Publicly-funded family planning services” refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
