Policy and Research, LLC  
New Orleans, LA  
\$808,386

Policy and Research, LLC intends to implement and monitor a high-quality rigorous evaluation of the *Practice Self-Regulation* (PS-R) intervention. PS-R is designed for youth age 14-19 who have experienced trauma and are receiving outpatient counseling services. It is composed of 10 structured, one-on-one therapy-education sessions delivered by a therapist over a 16-week period and is intended to promote optimal sexual decision-making within the context of individual therapy. The study will take place at multiple outpatient clinics that serve youth age 14-19 in Albuquerque, NM and **Adrian, MI**. Starting in July 2016 and continuing for two years, 600 participants will be enrolled into the study at partner clinics. The third and fourth years of the grant will be used to complete the following tasks: collect follow-up data from study participants; conduct implementation and impact evaluation analysis, reporting, and dissemination efforts; and finalize a complete electronic package of the implementation-ready intervention.

Program model: *Children's Aid Society - Carrera Adolescent Pregnancy Prevention Program*  
\$588,981

Teen HYPE, a minority run and directed 501(c)3 non-profit, will implement *Children's Aid Society - Carrera Adolescent Pregnancy Prevention Program* with 60 African American youth in Detroit. The project will be implemented at the organization's community-based site. Teen HYPE will partner with the CAS-Carrera National Training Center for this project. Currently, one in five Detroit births is to a teenager. This program seeks to help young people in Detroit develop capacity and desire to avoid teen pregnancy. The primary goal for this project is to help young people in Detroit to develop capacity and desire to avoid teen pregnancy.

YMCA of Metropolitan Detroit  
Detroit, MI

Program model: *Making a Difference!*  
\$981,856

The YMCA of Metropolitan Detroit will implement the program model *Making a Difference!* to address the need for teen pregnancy prevention and STI prevention for youth ages 11-14 in Wayne, Macomb, and Oakland Counties. *Making a Difference!* will be offered within the YMCA's Sexual Wellness and Information for Teens program during the school year at public, charter, and parochial schools (14 schools total) throughout the tri-county area. Approximately 10,000 youth will be served over the five-year project. During the summer months, the program will be offered to youth via YMCA branches and other youth-serving organizations. Incarcerated youth at two detention centers will also be served through this project. The overarching goals of this project are to delay the onset of sexual activity of youth, reduce the number of youth who participate in sexual activity, and reduce the number of STDs, including HIV/AIDS, and teenage pregnancies in the Metropolitan Detroit area.

## TITLE X FAMILY PLANNING SERVICES IN MICHIGAN

- Title X–supported centers provided contraceptive care to 77,340 women in Michigan in 2014.<sup>5</sup> These services helped women avoid 18,700 unintended pregnancies, which would have resulted in 9,100 births and 6,700 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in Michigan would be 27% higher.<sup>6</sup>
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X-supported centers in Michigan saved \$109 million in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding Michigan received for Title X decreased by \$541,314, resulting in 41,149 fewer (36%) patients served.
- In Michigan, 94 clinics receive support from Title X. They include health department clinics (68), Planned Parenthood clinics (22), Institute for Population Health clinics (2), Family Planning Association of Allegan County clinics (1), and hospitals (1).

**About The National Campaign:** The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults.
