¹ Evidence-based education programs

² This may include multi-state grants and/or grants that were awarded to an organization in another state, but are benefitting youth in your state.

³ Replaced the Competitive Abstinence Education Program beginning in FY 2016.

FEDERAL TEEN PREGNANCY PREVENTION GRANTS⁴

State Personal Responsibility Education Program (PREP)

Missouri Department of Health and Senior Services

\$973,624

The Missouri PREP state grant program distributes funding to local entities to serve youth residing in areas with high teen birth rates, high STD rates, and other related risk factors including poverty, low education levels, and youth in or aging out of the foster care system. Evidence-based programming targets youth ages 12–18 in community-based settings.

Personal Responsibility Education Innovation Strategies (PREIS)

FY 2010 – FY 2015

Education Development Center, Inc.

Newton, MA

Project name: More Than a Dream Teen Pregnancy Prevention for Latino Youth

\$773,359

More than a Dream Teen Pregnancy Prevention for Latino Youth is collaboration between Education Development Center, the University of Michigan School Of Nursing, and the League of United Latin American Citizens' National Educational Service Centers (LNESEC), to find developmentally appropriate and culturally and linguistically relevant youth and parent interventions that address sexual health and pregnancy prevention among Latino youth. The project will evaluate the youth intervention *Cuídate* (Take Care of Yourself) and the parent intervention *Salud y éxito* (Health & Success), as well as a combined youth-parent program called *Más que un sueño* (More Than a Dream). Work will take place at four LNESEC sites, in Albuquerque, NM, Colorado Springs, CO, El Paso, TX, and **Kansas City, MO**, with the goal of reducing sexual and other risk behaviors. Participants will be younger Latino adolescents, ages 12 to 14, and their parents.

Title V State Abstinence Education Grant

Missouri Department of Health and Senior Services

\$1,372,460

The Missouri abstinence education grant provides a sub-grant to Lincoln University Extension Cooperatives to support programming targeted toward youth ages 10–19 in Dunklin, Jackson, Mississippi, New Madrid, Pemiscott, Scott, and St. Louis counties. Programming primarily serves African-American youth and youth in foster care. In addition, funds are used for a statewide media campaign.

Sexual Risk Avoidance Education Program Grant

FY 2016 – FY 2018

The Curators of the University of Missouri-St. Louis

St. Louis, MO

\$442,019

⁴ Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. State PREP, Tribal PREP, and Title V State Abstinence grant amounts, where applicable, reflect the most recent annual award.

Sexual Risk Avoidance Education Program Grant (continued)

ThriVe St. Louis
St. Louis, MO
\$433,021

**Teen Pregnancy Prevention Program (TPPP) — Tier 1
FY 2015 – FY 2019**

Better Family Life
Saint Louis, MO

Program models: *Promoting Health among Teens-Abstinence Only; Making Proud Choices!; Sisters Saving Sisters*

\$1,249,997

Better Family Life, Inc. (BFL) is a St. Louis, Missouri community development corporation with 32 years of experience in operating programs to strengthen St. Louis Families. BFL is partnering with 22 St. Louis City, MO, St. Louis County, MO, and St. Clair County, IL, public and private schools in six different area school districts. The BFL Teen Pregnancy Prevention Program is designed to educate youth on positive sexual health decision making and emphasizes abstinence. BFL implements evidence-based initiatives, programs and services to reduce teen pregnancy, HIV, other sexually transmitted diseases (STDs), and risky sexual behavior among adolescents in middle school, high school, and community/after school settings in the greater metropolitan area. The BFL initiative seeks to empower students in urban and suburban communities to navigate adolescence so they make proud choices that reflect their passion and potential.

**Teen Pregnancy Prevention Program (TPPP) — Tier 1
FY 2010 – FY 2014**

Better Family Life
St. Louis, MO

Program model: *Becoming a Responsible Teen (BART) and Reducing the Risk*

\$998,500

Better Family Life will implement *Becoming a Responsible Teen (BART) and Reducing the Risk* with 6,300 predominantly African American youth in the cities of St. Louis and Jennings in St. Louis County, MO. They will coordinate with five collaborative partners to administer programming to the target population. The long-term goals of the project are to reduce teen pregnancy rates and reduce sexually transmitted infections among the target youth in the target areas.

The Women's Clinic of Kansas City
Independence, MO

Program model: *Teen Outreach Program™*

\$1,045,158

The Women's Health Clinic of Kansas City is implementing the *Teen Outreach Program™ (TOP)* in their community through their program entitled Lifeguard Youth Development. The grantee will implement the *TOP* model in 20 sites throughout public schools, CBOs, and alternative school programs. The project plans to serve 200 youth per year and also includes an independently conducted rigorous evaluation. The evaluation provides for the involvement of evaluators throughout the program implementation and includes performance measurements of quality, impacts, and quantitative outcomes.

Washington University
St. Louis, MO
Program model: *Safer Sex*
\$400,000

Washington University's Project ARK-AIDS/HIV Resources and Knowledge project will replicate the evidence-based program model *Safer Sex*. Project ARK will incorporate a pregnancy prevention program within the context of a comprehensive medical home model for youth ages 13-17 entering foster care. Approximately 500 youth will be served over the five-year project period. The overall goal of this project is to decrease risky sexual behaviors, including new sexual partners, among young women in the St. Louis City and County foster care system, which will ultimately lead to a decrease in teen pregnancy among this population.

Pregnancy Assistance Fund

FY 2015 – FY 2019

Missouri Department of Elementary and Secondary Education
Jefferson City, MO
\$637,888

TITLE X FAMILY PLANNING SERVICES IN MISSOURI

- Title X–supported centers provided contraceptive care to 45,730 women in Missouri in 2014.⁵ These services helped women avoid 11,100 unintended pregnancies, which would have resulted in 5,400 births and 4,000 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in Missouri would be 32% higher.⁶
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X-supported centers in Missouri saved \$72.2 million in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding Missouri received for Title X decreased by \$1,117,644, resulting in 21,598 fewer (31%) patients served.
- In Missouri, 80 clinics receive support from Title X. They include health department clinics (41), private non-profits (22), Planned Parenthood clinics (7), federally qualified health centers (6), hospitals (2), and universities (2).

About The National Campaign: The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. For more information, visit www.TheNationalCampaign.org.

⁵ “Title X-supported centers” are supported by a mix of funding sources (in addition to Title X funding) including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

⁶ “Publicly-funded family planning services” refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
