This project targets 13-15 year olds enrolled in after-school programs at eight Native Boys and Girls clubs located in rural tribal reservation areas in **North Dakota** and South Dakota, representing 10 different tribes. The curriculum, *Circle of Life*, is a theory-based sexual risk reduction intervention designed specifically for Native youth that uses familiar symbols, stories, and ways of learning to build knowledge and skills to bring about behavior change in Native youth. The project will digitize *Circle of Life* and adapt components to accommodate shortened after-school programming. The project will also adapt *Circle of Life* to reflect tribal-specific content through digital, readily accessible techniques, such as digital story telling. The goal of this project is to scientifically evaluate the effectiveness of *Circle of Life* in reducing the probability of behavior resulting in pregnancy.

<sup>4</sup> Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. North Dakota opted not to apply for the PREP state formula grant funding, therefore Competitive PREP grants were awarded to other entities in the state on a competitive basis.

## TITLE X FAMILY PLANNING SERVICES IN NORTH DAKOTA

- Title X–supported centers provided contraceptive care to 8,360 women in North Dakota in 2014.<sup>5</sup> These services helped women avoid 2,000 unintended pregnancies, which would have resulted in 1,000 births and 700 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in North Dakota would be 56% higher.<sup>6</sup>
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X-supported centers in North Dakota saved \$12.5 million in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding North Dakota received for Title X decreased by \$176,082, resulting in 6,115 fewer (41%) patients served.
- In North Dakota, 20 clinics receive support from Title X. They include health department clinics (15), private non-profits (2), universities (1), and other clinics (2).

**About The National Campaign:** The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. <sup>5</sup> “Title X-supported centers” are supported by a mix of funding sources (in addition to Title X funding) including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

<sup>6</sup> “Publicly-funded family planning services” refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
