

The National Campaign

to Prevent Teen and Unplanned Pregnancy

Key Information about Nevada

State Policies to Increase Access to and Information About Contraception*	Has State Instituted Law/Policy?
Expand Medicaid to childless adults as the ACA allows	Yes
Medicaid Family Planning Waiver or State Plan Amendment (SPA)	No
Medicaid reimbursement for postpartum LARC	No
State law/policies to increase pharmacy access to contraception	No
State law/policies to extend the supply of prescription contraceptives	Yes
State law/policies to educate college students about unplanned pregnancy	No
Other state laws/policies/initiatives to increase access to contraception	Yes [†]

[†] In 2017, Nevada enacted two such laws: [one](#) requires all public and private plans to cover all FDA approved contraceptive methods for women, without out-of-pocket costs, while [another](#) establishes a program to provide grants for family planning services. Both laws are effective January 1, 2018.

Funding Streams for Teen and Unplanned Pregnancy Prevention**	Current Annual Funding Level (if applicable to state)
Personal Responsibility Education Funding (PREP) ¹	
State PREP (if state opted to receive formula grant)	\$448,745
Competitive PREP grants awarded in the state (if state opted not to receive PREP formula grant)	-
Tribal PREP	-
Personal Responsibility Education Innovative Strategies (PREIS)	-
Teen Pregnancy Prevention (TPP) Program ^{1, 2}	\$1,321,586
Pregnancy Assistance Fund (PAF)	-
Title V State Abstinence Education (if state opted to receive formula grant)	\$666,706
Sexual Risk Avoidance Education Program ³	-
Title X Family Planning Program	\$3,044,600

State Stats
64% births are funded by Medicaid, as of 2016
See more state stats at http://thenationalcampaign.org/data/state/nevada

** For an overview of federal funding for teen pregnancy prevention, see <https://thenationalcampaign.org/resource/federal-funding-streams-teen-pregnancy-prevention>

¹ Evidence-based education programs

² This may include multi-state grants and/or grants that were awarded to an organization in another state, but are benefitting youth in your state.

³ Replaced the Competitive Abstinence Education Program beginning in FY 2016.

FEDERAL TEEN PREGNANCY PREVENTION GRANTS⁴

State Personal Responsibility Education Program (PREP)

Nevada State Health Division

\$448,745

The Nevada State Health Division is implementing the state's PREP grant program. The funding supports evidence-based programming in community-based settings. It focuses on Latina and African American females in Clark and Washoe counties.

Title V State Abstinence Education Grant

Nevada State Health Division

\$666,706

The Nevada State Health Division is using their State Abstinence Education Grant Program funding to collaborate with Carson City Health and Human Services. The program targets youth ages 9–12, with priority enrollment given to youth in foster care. In addition, funds are used for a statewide radio and TV campaign in partnership with the Nevada Broadcasters Association.

Teen Pregnancy Prevention Program (TPPP) — Tier 1 FY 2015 – FY 2019

Nevada Primary Care Association

Carson City, NV

Program name: *Blueliner*

\$571,587

The Nevada Primary Care Association (NVPCA), in partnership with Community Health Centers (CHCs) throughout Nevada, as well as the Nevada Division of Public and Behavioral Health, works to build the capacity of the CHCs to implement evidence-based teen pregnancy prevention (TPP) programs to teens being served by the CHCs and their peers. In order to reach this goal, NVPCA implements *Blueliner*, a Capacity Building Assistance (CBA) program, in two urban counties and five rural counties with some of the highest teen birth rates in Nevada (Carson City, Clark, Elko, Eureka, Lander, Nye, Washoe counties). To better address the pregnancy prevention needs of the communities served, the project builds on the clinical services of the CHCs by providing CBA to support their abilities to provide evidence-based TPP programs, first in the clinic setting and then moving into community-based programs.

Southern Nevada Health District

Las Vegas, NV

Program models: *Sexual Health and Adolescent Risk Prevention (SHARP); Families Talking Together; Be Proud! Be Responsible!*

\$749,999

The Southern Nevada Health District (SNHD) conducts the Southern Nevada Teen Pregnancy Prevention (TPP) Replication Project, serving Clark County, Nevada communities most in need of teen

⁴ Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. State PREP, Tribal PREP, and Title V State Abstinence grant amounts, where applicable, reflect the most recent annual award.

pregnancy prevention. The project will implement evidence-based TPP programs in two Clark County communities within the Cities of Las Vegas and North Las Vegas with an average teen birth rate of 63.8 per 1,000 teen girls. This project will implement evidence-based teen pregnancy prevention programs in juvenile detention, community-based programs, and out-of-home placement for youth in foster care.

**Teen Pregnancy Prevention Program (TPPP) — Tier 1
FY 2010 – FY 2014**

Board of Regents, NSHE, obo University of Nevada Las Vegas
Las Vegas, NV

Program model: *Becoming a Responsible Teen (BART)*
\$559,821

The Center for Health Disparities at the University of Nevada Las Vegas will target 400 African American youth ages 14-18 in Clark County, NV to implement the *Becoming a Responsible Teen (BART)* curriculum. The youth will be recruited and served through churches and community centers. The program will provide teens with HIV/AIDS prevention information, abstinence education, and communication/negotiation skills regarding sex and contraception education. The program seeks to impact youth behaviors by delaying sexual initiation, reducing sexual activity, and increasing the use of condoms for sexually active youth.

Southern Nevada Health District
Las Vegas, NV

Program models: *¡Cúídate!* and *Be Proud! Be Responsible!*
\$997,257

The Southern Nevada Health District (SNHD) will work with a core group of agencies such as the Clark County Division of Family Services, the Nevada Division of Child and Family Services, and the Clark County Family Courts to provide education and interventions for 9,000 high risk adolescents aged 13-18 years in seven zip codes. Youth will be served in detention centers or at one of two Division of Family Services sites. SNHD will be joined by a coalition of partner agencies that serve youth residents to implement the *¡Cúídate!* curriculum for Hispanic teenagers and the *Be Proud! Be Responsible!* curriculum for African American teenagers. The initial project will serve youth in the Clark County Juvenile Detention Center, Clark County Probation, and Division of Family Services Foster Care Program. In year three, SNHD plans to expand to community-based organizations (i.e., Boys and Girls Clubs) to reach youth that reside in Clark County zip codes with high incidences of teen birth rates, HIV/STD infections and poverty, and disenfranchised youth (including immigrants, homeless and those involved with the judicial system). The goals of the program are: 1) to reduce birth rates among Clark County teenagers; 2) to reduce rates of pregnancy in teenagers in Clark County; and 3) to reduce rates of sexually transmitted illness such as Chlamydia, Gonorrhea, HIV and AIDS in teenagers.

TITLE X FAMILY PLANNING SERVICES IN NEVADA

- Title X–supported centers provided contraceptive care to 12,770 women in Nevada in 2014.⁵ These services helped women avoid 3,100 unintended pregnancies, which would have resulted in 1,500 births and 1,100 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in Nevada would be 16% higher.⁶
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X-supported centers in Nevada saved \$13 million in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding Nevada received for Title X decreased by \$565,211 resulting in 12,560 fewer (53%) patients served.
- In Nevada, 19 clinics receive support from Title X. They include health department clinics (18) and federally qualified health centers (1).

About The National Campaign: The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. For more information, visit www.TheNationalCampaign.org.

⁵ “Title X-supported centers” are supported by a mix of funding sources (in addition to Title X funding) including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

⁶ “Publicly-funded family planning services” refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
