¹ Evidence-based education programs

² This may include multi-state grants and/or grants that were awarded to an organization in another state, but are benefitting youth in your state.

³ Replaced the Competitive Abstinence Education Program beginning in FY 2016.

FEDERAL TEEN PREGNANCY PREVENTION GRANTS⁴

State Personal Responsibility Education Program (PREP)

Oklahoma State Department of Health

\$643,470

The Oklahoma State Department of Health implements the state's PREP grant program through sub-grants to local health departments in Oklahoma City and Tulsa. Evidence-based programs are provided primarily in school settings, and focus on African American, Latino, and Native American youth.

Personal Responsibility Education Innovative Strategies (PREIS)

FY 2010 – FY 2015

Oklahoma Institute for Child Advocacy

Oklahoma City, OK

Project Name: *POWER Through Choices 2010*: Demonstration, Evaluation and Dissemination Project

\$929,750

Oklahoma Institute for Child Advocacy will implement and evaluate *POWER Through Choices 2010*, a sexuality education curriculum developed with and for youth in foster care and other out-of-home placements. The project will target youth, ages 14 to 18, living in foster care group home settings in racially/ethnically diverse areas in four states: Oklahoma, California, Illinois and Maryland. The 10-session curriculum provides instruction and skills building in the areas of reproductive health, sexual decision-making (including abstaining from sexual activity) and STI and pregnancy prevention. The goals of the project are to test the efficacy of the updated curriculum in reducing teen pregnancy and to disseminate the lessons learned during program implementation to inform future replications of the program with youth living in foster care.

Tribal PREP

FY 2011 – FY 2015

Cherokee Nation	\$325,425
Choctaw Nation of Oklahoma	\$205,920
Iowa Tribe of Oklahoma	\$149,902

Title V State Abstinence Education Grant

Oklahoma State Department of Health

\$998,103

The Oklahoma Department of Health administers the State Abstinence Education Grant Program in collaboration with three local entities. The funded programs target elementary and middle school aged children and their parents.

⁴ Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. State PREP, Tribal PREP, and Title V State Abstinence grant amounts, where applicable, reflect the most recent annual award.

**Teen Pregnancy Prevention Program (TPPP) — Tier 1
FY 2015 - 2019**

Choctaw Nation of Oklahoma
Durant, OK

Program models: *Draw the Line/Respect the Line; Safer Choices; All4You!*
\$1,175,000

The Choctaw Nation of Oklahoma intends to have a significant impact on reducing rates of teen pregnancy and existing disparities by replicating evidence-based teen pregnancy prevention programs in middle schools, high schools, and alternative schools in Choctaw, McCurtain, and Pushmataha counties, three counties in Southeast Oklahoma with some of the highest teen pregnancy rates.

Oklahoma City-County Health Department
Oklahoma City, OK

Program models: *Making Proud Choices; Making a Difference; Be Proud! Be Responsible!*
\$1,200,000

The Oklahoma City-County Health Department will deliver evidence-based programming in partnership with the Oklahoma City Public School System, including programs in 6th, 9th, 10th, and 12th grade settings. The program will also implement evidence programs in post-secondary settings, targeting incoming college freshman. The program will develop the capacity of selected area clinics to provide teen-friendly services and to create linkages to these services via a coordinated system of referrals. Finally, the program will increase awareness and ownership of the issue within the targeted communities.

Youth Services of Tulsa, Inc.
Tulsa, OK

Program models: *Making Proud Choices; Making a Difference; SHARP; CAS-Carrera;*
\$1,499,600

Youth Services of Tulsa, the Tulsa Campaign to Prevent Teen Pregnancy, and Community Service Council have formed a robust partnership—the Tulsa Area Teen Pregnancy Prevention Collaborative (the Collaborative)—to collectively advance teen pregnancy prevention efforts in Tulsa County, Oklahoma. The teen birthrate for Tulsa County females, age 15-19, is 40% higher than the national average and some areas of Tulsa County have a birth rate more than triple the national average. The Collaborative is poised to reduce the birth rate to teens in Tulsa County by mobilizing the community, expanding current efforts, filling gaps, and increasing reach through strategic partnerships. The Collaborative will deliver diverse evidence-based teen pregnancy prevention interventions in seven settings (in-school middle school, in-school high school, alternative school, juvenile detention, community-based, specialized, and clinic) reaching 6,000 youth initially and eventually nearly 10,000 youth by grant year five in 2020. In addition, we will increase the number of youth receiving health care services by increasing the number of referrals and the capacity of area health care providers to offer youth-friendly services.

**Teen Pregnancy Prevention Program (TPPP) — Tier 1
FY 2010 – 2014**

Youth Services of Tulsa, Inc.
Tulsa, OK

Program model: *Sexual Health and Adolescent Risk Prevention (SHARP)*

\$431,543

This project targets high risk youth aged 12-19 years over the 5-year project period. Youth in the target population are located in six public housing communities, three detention centers, and five programs at Youth Services Tulsa, including adolescent emergency shelter, street outreach, first time offender, home-based counseling, and transitional living programs. The curriculum is small group-driven and will be replicated to youth grouped in specific age brackets: 12-14, 15-17, and 18-19. The overall goal for this program is to reduce the birthrate for teens that participate in the curriculum replication.

Pregnancy Assistance Fund

Funded 2010 – 2013 and 2013 – 2016

Choctaw Nation of Oklahoma

Durant, OK

Program Categories: High Schools and Community Service Centers and Public Awareness and Education

\$977,432

TITLE X FAMILY PLANNING SERVICES IN OKLAHOMA

- Title X–supported centers provided contraceptive care to 52,730 women in Oklahoma in 2014.⁵ These services helped women avoid 12,800 unintended pregnancies, which would have resulted in 6,200 births and 4,600 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in Oklahoma would be 54% higher.⁶
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X–supported centers in Oklahoma saved \$68.1 million in public funds in 2010.
- From FY 2010 to FY 2014, the amount of federal funding Oklahoma received for Title X increased by \$1,768,548, yet 19,807 fewer (27%) patients were served.
- In Oklahoma, 102 clinics receive support from Title X. They include health department clinics (95), federally qualified health centers (4) Planned Parenthood clinics (3), and other independent clinics (1).

About The National Campaign: The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. For more information, visit www.TheNationalCampaign.org.

⁵ “Title X-supported centers” are supported by a mix of funding sources (in addition to Title X funding) including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

⁶ “Publicly-funded family planning services” refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
