¹ Evidence-based education programs

² This may include multi-state grants and/or grants that were awarded to an organization in another state, but are benefitting youth in your state.

³ Replaced the Competitive Abstinence Education Program beginning in FY 2016.

FEDERAL TEEN PREGNANCY PREVENTION GRANTS⁴

State Personal Responsibility Education Program (PREP)

Oregon Health Authority

\$599,531

The state is using their PREP funding to provide evidence-based programming in school- and community-based settings in Jackson, Jefferson, Marion, and Multnomah counties. The programs focus on Latino youth living in areas with high teen pregnancy or birth rates

Tribal PREP

FY 2016 – FY 2020

Confederated Tribes of Grand Ronde \$327,867

FY 2011 – FY 2015

Confederated Tribes of Grand Ronde \$144,953

Title V State Abstinence Education Grant

Oregon Department of Human Services

\$818,631

The Oregon State Abstinence Education Grant is implemented by the Children, Adults and Families Division of the Department of Human Services. The program awards sub-grants to 17 local entities to provide in-class instruction to sixth and seventh grade students.

Competitive Abstinence Education Grant Program

FY 2015

Northwest Family Services

Portland, OR

\$440,850 (to be spent through FY 2016)

FY 2012

Northwest Family Services

Portland, OR

\$412,430 (to be spent through FY 2013)

Teen Pregnancy Prevention Program (TPPP) — Tier 1

FY 2015 – FY 2019

Multnomah County Health Department

Portland, OR

\$1,249,999

Program models: *Get Real; Making Proud Choices!; Reducing the Risk*

Multnomah County Health Department (MCHD) Adolescents and Communities Together (ACT) project intends to reduce disparities in sexual health among our young people and improve all youth's ability to

⁴ Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. State PREP, Tribal PREP, and Title V State Abstinence grant amounts, where applicable, reflect the most recent annual award.

thrive, succeed educationally, maintain sexual and reproductive health, and be in healthy relationships. In order to achieve this goal, over the next five years schools in participating districts will support the implementation of classroom-based curricula in middle schools (6th, 7th, and/or 8th grades) and high school health classes in priority neighborhoods. Community partners will also reach youth and parents using culturally-relevant evidence-based programming along with other locally-identified youth development activities. This project will serve more than 12,000 young people annually.

Planned Parenthood of the Great Northwest
Seattle, WA

Program model: *Stronger Together*
\$750,000

The goal of the Stronger Together program is to assist organizations in implementing sexual health education to adolescents at high risk for unintended pregnancy; to increase organizational capacity to provide evidence-based sex education; and to reduce unintended teen pregnancy and improve health outcomes in areas of demonstrated need. In order to achieve this goal, Planned Parenthood of the Great Northwest and the Hawaiian Islands works with youth-serving community partner organizations to build capacity in three communities: **Medford, OR; Grants Pass, OR;** and Tacoma, WA. Training Specialists and Managers work directly with partner organization staff to provide training, skill building, and planning and program development assistance. Project staff provide observation and coaching to partner staff delivering evidence-based programs and work directly on sustainability efforts to assist partner organization in building long term capacity to engage in teen pregnancy prevention work.

Planned Parenthood of the Great Northwest
Seattle, WA

Program models: *All4You, Families Talking Together, Love Notes, Sisters Saving Sisters, Safer Sex Intervention, Get Real, Positive Prevention Plus*
\$999,999

The Northwest Coalition for Adolescent Health (NWCALH) will deliver evidence-based teen pregnancy prevention programs to scale across four states, in seven communities with disparately high teen pregnancy rates. The communities are Caldwell, ID; **Salem, OR;** South Salt Lake City, Utah; Centralia, WA; East Tacoma, WA; and Mt. Vernon, WA. In each community there are three distinct implementation settings ranging from faith-based institutions, to foster care youth programs, to high school settings and school based health centers.

Teen Pregnancy Prevention Program (TPPP) — Tier 2 FY 2015 – FY 2019

Planned Parenthood of the Great Northwest
Seattle, WA

Program models: *Linking Families and Teens (LiFT)*
\$1,000,000

Planned Parenthood of the Great Northwest and the Hawaiian Islands (PPGNW) intends to reduce teen pregnancy rates, increase use of contraceptives, and delay initiation of sexual activity among rural, 9-12th grade youth by increasing parent-child connectedness, and increasing youth's self-efficacy, knowledge, and skill related to sexual health and pregnancy prevention in Alaska, Hawaii, Idaho,

Oregon, Hawaii, Utah, and Washington. In order to achieve this goal, PPGNW implements LiFT, a program designed specifically for rural communities that brings 9-12th grade youth and their parenting adult together to share family values, strengthen family bonds, and talk about healthy relationships and sexual health.

Planned Parenthood of the Great Northwest
Seattle, WA

Program model: *IN•clued: Inclusive Healthcare—Youth and Providers Empowered*
\$1,000,000

PPGNW intends to prevent teen pregnancy and sexual transmitted infections in the LGBTQ youth population. In order to achieve this goal, PPGNW implements the *IN•clued* program delivered in 14 communities in Alaska, Massachusetts, Minnesota, Montana, **Oregon**, Utah, and Washington through the PPGNW Teen Council Peer Education program. Each teen council group will deliver trainings to two different audiences: 1) *IN•clued* for health care staff and providers, a three hour workshop delivered by peer teen educators in two 1.5 hour segments that include best practices for working with LGBTQ youth; and 2) *IN•clued* for LGBTQ youth, a three hour interactive workshop delivered by teen peer educators to their peers who identify as gay, lesbian, bisexual, transgender, or queer/questioning. The workshop includes education related to sexual risk prevention and information about how to access sexual health services.

WestEd
Woburn, MA

\$575,729

WestEd and its partners Efficacy and the Oregon Youth Authority (OYA), are conducting a randomized controlled trial of an innovative teen pregnancy prevention program, Healthy U, for youthful male offenders. This study involves male teenagers (age 14-19) at high risk for involvement in risky sexual behavior, including teen pregnancy. The innovative, non-curricular, technology-based intervention, Healthy U, is self-directed, low-cost, user friendly, and offers great promise in reaching incarcerated youth. The purpose of this study is to test this intervention on a population of young men incarcerated at the OYA who will soon be released into the community. The intervention is tailored to this population by updating the design, videos, and examples to best reflect the youth in the study, and OYA staff are being trained to facilitate the self-guided intervention.

Teen Pregnancy Prevention Program (TPPP) — Tier 1 FY 2010 – FY 2014

Planned Parenthood of the Great Northwest
Seattle, WA

Program model: *Teen Outreach Program™*
\$4,000,000

Planned Parenthood of the Great Northwest is a partnership among six Planned Parenthood affiliates collaborating to administer the *Teen Outreach Program™* across five states. The partnership proposes to target high risk youth particularly of African American, Native American, Russian and Ukrainian races/ethnicities in 27 counties in Alaska, Idaho, Montana, **Oregon** and Washington. The program will serve 8,000 youth in grades 7-12 in school and in after-school programs. The project also includes an independently conducted rigorous evaluation. The outcomes of the program are to successfully reduce

teen pregnancy rates and onset of sexual activity, increase contraception among sexually active youth, decrease academic failure and increase positive attitudes toward service and community engagement.

Pregnancy Assistance Fund

Funded 2010 – 2013 and 2013 – 2016

Oregon Department of Justice

Salem, OR

Program Category: Domestic Violence and Sexual Assault Prevention

\$1,000,382

TITLE X FAMILY PLANNING SERVICES IN OREGON

- Title X–supported centers provided contraceptive care to 54,790 women in Oregon in 2014.⁵ These services helped women avoid 13,300 unintended pregnancies, which would have resulted in 6,500 births and 4,800 abortions.
- In the absence of publicly funded family-planning services, the number of unintended pregnancies and abortions in Oregon would be 83% higher.⁶
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X-supported centers in Oregon saved \$37.1 million in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding Oregon received for Title X decreased by \$235,000, resulting in 17,149 fewer (24%) patients served.
- In Oregon, 96 clinics receive support from Title X. They include health department clinics (50), federally qualified health centers (22), school-based health centers (22), and Planned Parenthood clinics (2).

About The National Campaign: The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. For more information, visit www.TheNationalCampaign.org.

⁵ “Title X-supported centers” are supported by a mix of funding sources (in addition to Title X funding) including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

⁶ “Publicly-funded family planning services” refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
