¹ Evidence-based education programs

² This may include multi-state grants and/or grants that were awarded to an organization in another state, but are benefitting youth in your state.

³ Replaced the Competitive Abstinence Education Program beginning in FY 2016.

FEDERAL TEEN PREGNANCY PREVENTION GRANTS⁴

State Personal Responsibility Education Program (PREP)

Pennsylvania Department of Health

\$1,983,637

The Pennsylvania PREP grant program is administered in collaboration with 15 sub-grantees. The sub-grantees provide evidence-based programming for youth ages 10–19 in community-based residential programs that serve delinquent youth, drug and alcohol facilities, and mental health facilities.

Personal Responsibility Education Innovative Strategies (PREIS)

FY 2016 – FY 2020

Public Health Management Corporation

Philadelphia, PA

\$965,000

FY 2010 – FY 2015

Public Health Management Corporation

Philadelphia, PA

Project name: *Plain Talk Philadelphia*

\$933,907

The Public Health Management Corporation (PMHC), a non-profit public health institute, will implement an enhanced version of the *Plain Talk* curriculum. Initiated by the Annie E. Casey Foundation more than 15 years ago, *Plain Talk* is a tested community-based initiative that reduces teen pregnancy and sexually transmitted diseases. The *Plain Talk* adaptation PHMC will evaluate in Philadelphia incorporates a Positive Youth Development framework and a process for tracking group and neighborhood outcomes. PHMC plans to implement *Plain Talk* in two public housing developments in North Philadelphia, the Norris and Fairhill Apartments, where poverty, poor health, and poor academic performance put young residents at risk for early pregnancy and sexually transmitted infections.

Title V State Abstinence Education Grant

Pennsylvania Department of Health

\$2,316,829

The Pennsylvania State Abstinence Education Grant provides both community- and school-based programming to youth ages 9- 14 who are African-American and Latino, in foster care, have a disability or special health care need, and other high-risk youth.

⁴ Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. State PREP, Tribal PREP, and Title V State Abstinence grant amounts, where applicable, reflect the most recent annual award.

**Teen Pregnancy Prevention Program (TPPP) — Tier 2
FY 2015 – FY 2019**

Public Health Management Corporation
Philadelphia, PA

Program model: *Promoting Awareness through Live Movement and Sound (PALMS-TPP)*
\$749,000

Public Health Management Corporation is testing the effectiveness of a theater-based, group-level intervention for African American young men age 15-22, called Promoting Awareness through Live Movement and Sound-Teen Pregnancy Prevention (PALMS-TPP). The goal of PALMS-TPP is to reduce young men's risk for teen pregnancy and to strengthen protective factors that have been found to be associated with improved sexual decision-making and reduced likelihood of teen or unplanned pregnancy.

Carnegie Mellon University
Pittsburgh, PA

Program model: *"The Choice is Yours" (TCIY)*
\$1,000,000

Carnegie Mellon University (CMU) intends to improve female adolescents' health behaviors regarding pregnancy and sexually transmitted infection (STIs). In order to accomplish this, CMU is implementing Making Healthy Decisions, a program composed of Your Move (an intervention program on sexual behaviors) and Eat Smart (a control program on nutrition and healthy eating habits). The target population for this implementation and evaluation is females age 14-19, at relatively high risk for sexual activity or debut, and recruited through community-based organizations that serve high-risk youth in Delaware; Central and Western New York; Metro New Jersey; **Western Pennsylvania**; and the St. Louis Region. Both programs will be delivered in a series of seven 75-minute group sessions, one per lesson plan, which are scheduled at intervals corresponding to how often the group is gathered.

Policy and Research, LLC
New Orleans, LA

Program model: *Plan A*
\$934,643

The Policy & Research Group intends to implement and monitor a high-quality rigorous evaluation of the *Plan A* intervention. *Plan A* is a brief stand-alone sexual health video intervention designed for African-American and Latina women age 18-19 seeking care at reproductive health clinics in Fresno, California and **Philadelphia, Pennsylvania**. The video consists of three vignettes and an animated segment to educate young women and model effective use of contraception methods, including LARC and condoms. The video is designed to increase viewers' perceived risk of pregnancy and sexually transmitted infections (STIs) at a 'teachable moment' in the lives of young women, just prior to visiting with a health care provider.

**Teen Pregnancy Prevention Program (TPPP) — Tier 1
FY 2010 – FY 2014**

Carnegie Mellon University
Pittsburgh, PA

Program model: *What Could You Do?*

\$1,480,578

Researchers at Carnegie Mellon University, in collaboration with a clinical team from West Virginia University, will implement the *What Could You Do?* intervention in family planning and adolescent health clinics. The project will serve female adolescents, ages 14-19, seeking care at one of the participating clinics. The project sites will serve rural and urban settings with racially diverse populations; the communities served will include Allegheny County, Pennsylvania; Franklin County, Ohio; and six counties in West Virginia (Braxton, Boone, Harrison, Mercer, Mingo, and Randolph). The project also includes an independently conducted rigorous evaluation. The goal of the project is to reduce the number of teen pregnancies and STI diagnoses among participants.

Opportunities Industrialization Centers of America, Inc.
Philadelphia, PA

Program models: *Becoming a Responsible Teen (BART)* and *Reducing the Risk*

\$1,000,000

Opportunities Industrialization Centers of America, Inc. will partner with 11 Philadelphia middle and high schools to provide in-school teen pregnancy prevention programming to participants. The target population is urban youth, ages 12-19. Participants will be predominantly African-American and from lower-income households. The *Becoming a Responsible Teen* curriculum will be implemented in the middle schools, and the *Reducing the Risk* model will be used in high schools. The goals of the project are to decrease the teen pregnancy and STI rates among participants by reducing unprotected sexual activity.

**CDC Grant
FY 2010 – FY 2014**

The Family Planning Council
Philadelphia, PA

\$884,840

The Family Planning Council (FPC) received a grant to implement an initiative to reduce teen birth rates 10% by 2015 in the predominately African American West Philadelphia community. FPC is a private, nonprofit organization responsible for administering public funding for Title X family planning services in southeastern Pennsylvania. The target community has high teen birth rates, poverty and unemployment rates, and low high school graduation rates. The project goal will be achieved by increasing the number and percentage of youth aged 10–19 years who participate in evidence-based and evidence-informed teen pregnancy prevention programs and increasing the number and percentage of youth who receive clinical care. FPC is providing training and technical assistance to youth-serving agencies and clinics to select, implement, evaluate, and sustain evidence-based programs; providing training and technical assistance to clinics to increase accessibility and teen-friendliness; building relationships between clinics and youth-serving agencies; expanding the network of school-based health resource centers providing evidence-based teen pregnancy prevention programs; operating the CHOICE

Hotline to increase teens' awareness of clinical services; establishing an on-site "Askable Adult Program" to serve as a reproductive health resource for youth at schools and other youth-serving organizations; holding an annual Community Summit; and disseminating information to stakeholders.

TITLE X FAMILY PLANNING SERVICES IN PENNSYLVANIA

- Title X–supported centers provided contraceptive care to 193,310 women in Pennsylvania in 2014.⁵ These services helped women avoid 46,800 unintended pregnancies, which would have resulted in 22,700 births and 16,900 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in Pennsylvania would be 46% higher.⁶
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X-supported centers in Pennsylvania saved \$231.6 million in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding Pennsylvania received for Title X decreased by \$1,410,490, resulting in 107,095 fewer (34%) patients served.
- In Pennsylvania, 162 clinics receive support from Title X. They include federally qualified health centers (36), hospitals (30), Planned Parenthood clinics (24), private non-profits (23), Adagio Health clinics (14), universities (11), health department clinics (10), school-based health centers (9), and Maternal and Family Health Services clinics (5).

About The National Campaign: The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. For more information, visit www.TheNationalCampaign.org.

⁵ "Title X-supported centers" are supported by a mix of funding sources (in addition to Title X funding) including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

⁶ "Publicly-funded family planning services" refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
