¹ Evidence-based education programs

² This may include multi-state grants and/or grants that were awarded to an organization in another state, but are benefitting youth in your state.

³ Replaced the Competitive Abstinence Education Program beginning in FY 2016.

FEDERAL TEEN PREGNANCY PREVENTION GRANTS⁴

State Personal Responsibility Education Program (PREP)

South Carolina Department of Health and Environmental Control
\$761,044

The South Carolina Department of Health and Environmental Control is working in collaboration with the South Carolina Campaign to Prevent Teen Pregnancy to implement the PREP grant. The funds are supporting evidence-based programs serving high-risk youth across the state including those in foster care and the juvenile justice system, in both school and community-based settings.

Title V State Abstinence Education Grant

South Carolina Department of Health and Environmental Control
\$1,311,148

The South Carolina Department of Health and Environmental Control is implementing the State Abstinence Education Grant in collaboration with two local entities in 9 counties. The state program targets young people ages 10–19 in both community-based and school-based settings.

Competitive Abstinence Education Grant Program FY 2013

The Children's Council
Lancaster, SC
\$200,000 (to be spent through FY 2014)

Teen Pregnancy Prevention Program (TPPP) — Tier 1 FY 2015 – FY 2019

South Carolina Campaign to Prevent Teen Pregnancy
Columbia, SC

Program models: *Be Proud! Be Responsible; Draw the Line/Respect the Line; Making a Difference; Making Proud Choices; Reducing the Risk; Seventeen Days*
\$1,498,990

The South Carolina Campaign to Prevent Teen Pregnancy (SC Campaign) works with local organizations in three counties (Aiken, Anderson, and Orangeburg) in South Carolina with the highest teen birth rates to implement evidence-based teen pregnancy prevention programs. Over the course of this five-year project, subcontracts will be provided to a number of partners in each community resulting in a minimum of 24,000 youth having the opportunity to participate in multiple evidence-based teen pregnancy prevention programs providing sequential and reinforcing information. The SC Campaign will contract with the Center for Health Services and Policy Research at the University of South Carolina to conduct evaluation activities using an online data collection and reporting system.

⁴ Federal teen pregnancy prevention grants are listed as annual amounts, unless otherwise noted. State PREP, Tribal PREP, and Title V State Abstinence grant amounts, where applicable, reflect the most recent annual award.

South Carolina Campaign to Prevent Teen Pregnancy
Columbia, SC
Program model: *Capacity Building Assistance (CBA)*
\$716,000

In partnership with the South Carolina Department of Juvenile Justice, the South Carolina Department of Social Services, and other organizations serving youth from these systems, the South Carolina Campaign to Prevent Teen Pregnancy intends to increase the capacity of organizations serving at-risk youth to plan, select, implement, evaluate, and sustain evidence-based teen pregnancy, HIV, and sexually transmitted disease (STD) prevention programming and services. The South Carolina Campaign is the lead agency on this project and will work in 16 local level youth serving organizations to replicate evidence-based teen pregnancy/HIV/STD prevention programs. At least four youth-serving organizations will be selected to partner on the project every January for the next four years (2016-19).

The Children's Council
Lancaster, SC

Program models: *Making a Difference; Making Proud Choices; Seventeen Days*
\$486,679

The Children's Council will partner with the Lancaster School District and University of South Carolina- Lancaster to implement evidence based teen pregnancy prevention (TPP) programs in middle schools, high schools and with college youth. The Children's Council intends to increase the number of youth who delay sexual activity which will in turn reduce the number of teens who become pregnant in Lancaster County. The project is designed as a universal intervention, targeting every 7th and 9th grade student in the county and incoming freshmen females at the local university.

The Mary Black Foundation
Spartanburg, SC

Program models: *Project AIM; Seventeen Days; Making a Difference; Making Proud Choices; Be Proud! Be Responsible!; SiHLe; Sexual Health and Adolescent Risk Prevention (SHARP)*
\$1,069,463

The Mary Black Foundation (MBF) intends to reduce the teen birth rate in Spartanburg by 20% by engaging the community in preventing disparities among teens and young adults. To achieve this goal MBF intends to increase access to seamless services, supports, and opportunities that will result in holistically healthier individuals. MBF works with community partners to replicate evidence-based interventions in schools, clinics, and community settings that focus on vulnerable youth and collaborate to provide mutually reinforcing strategies. These streamlined strategies provide education, positive youth development, and access to reproductive health services throughout adolescence. By raising awareness of adolescent issues, bridging the gap for our most vulnerable youth, and breaking the barriers around stigmatized issues, the community will collectively identify needs and improve outcomes for our most valuable resource: young people.

**Teen Pregnancy Prevention Program (TPPP) — Tier 1
FY 2010 – FY 2014**

South Carolina Campaign to Prevent Teen Pregnancy

Columbia, SC

Program model: *It's Your Game: Keep It Real*

\$1,469,480

The South Carolina Campaign to Prevent Teen Pregnancy will implement *It's Your Game: Keep It Real* in 24 middle schools across the state of South Carolina and will reach a minimum of 9,600 youth over the 5-year project. The project also includes an independently conducted rigorous evaluation. They are focusing their efforts on two very specific goals: (1) decrease the number of adolescent females in South Carolina who become pregnant before graduating from high school; and (2) increase the number of middle schools in South Carolina that institutionalize an evidence-based teen pregnancy prevention curriculum.

CDC Grant

FY 2010 – FY 2014

The South Carolina Campaign to Prevent Teen Pregnancy

Columbia, SC

\$1,486,232

The South Carolina Campaign to Prevent Teen Pregnancy (SC Campaign) received a grant to implement innovative, multicomponent, communitywide initiatives to prevent teen pregnancy, with a focus on reaching African American and Latino youth aged 15–19 years. The project is reducing teen pregnancy among ethnic minority youth in Spartanburg and Horry Counties by increasing access to high quality, evidence-based and evidence-informed youth development and teen pregnancy prevention programs, and increasing linkages between these programs and community-based clinical services. Major activities include developing a Community Advisory Group with representatives from a Youth Advisory Panel and local clinics, educating leadership on evidence-based programming, and developing content for an Online Learning Center aimed at building capacity among local partner organizations.

Pregnancy Assistance Fund

Funded 2013 – 2016

Children's Trust Fund of South Carolina

Columbia, SC

Program Categories: Institutions of Higher Education, High Schools and Community Service Centers, and Public Awareness and Education

\$1,500,000

TITLE X FAMILY PLANNING SERVICES IN SOUTH CAROLINA

- Title X–supported centers provided contraceptive care to 83,530 women in South Carolina in 2014.⁵ These services helped women avoid 20,200 unintended pregnancies, which would have resulted in 9,800 births and 7,300 abortions.
- In the absence of publicly-funded family planning services, the number of unintended pregnancies and abortions in South Carolina would be 58% higher.⁶
- By helping women avoid unintended pregnancies and the births that would follow, the services provided at Title X-supported centers in South Carolina saved \$142.5 million in public funds in 2010.
- From FY 2010 to FY 2015, the amount of federal funding South Carolina received for Title X decreased by \$1,388,431, resulting in 2,844 fewer (3.0%) patients served.
- In South Carolina, 58 clinics receive support from Title X. Local health departments operate all 58 clinics.

About The National Campaign: The National Campaign to Prevent Teen and Unplanned Pregnancy works to improve the lives and future prospects of children and families by ensuring that all children are born into families committed to and ready for the demanding task of raising the next generation by reducing unplanned pregnancy among teens and young adults. For more information, visit www.TheNationalCampaign.org.

⁵ “Title X-supported centers” are supported by a mix of funding sources (in addition to Title X funding) including Medicaid, funding from state and local governments, private grants and fundraising, reimbursement from commercial insurance, patient fees, and federal grants.

⁶ “Publicly-funded family planning services” refers to all public funding sources that support family planning services, including Medicaid, Title X, and other state and federal resources.
